I'm writing to express my vehement opposition to this un-American, unconstitutional, immoral, and unconscionable federal land grab. Why close any roads at all? This is, plain and simply, part of your ultimate goal to get the human virus out of your "pristine natural wilderness" and close it off forever to human contact. We have enough wilderness areas, critical habitat areas, wildlife refuges, wild and scenic rivers, national monuments, national forests, national parks, canyon preserves, wildlife sanctuaries, and whatever other monikers you and these small but well-funded environmental extremist groups use to denote land closed off from what they consider to be human infestation.

Who decides what is an "authorized" road? You? The environmental extremists who pull your strings? Why not the USERS of the land? Your bureaucracy has been infiltrated by environmental extremists like you who, with a wink and a nod, encourage these extremist organizations to sue you to close off OUR land to use by NORMAL people. This is NOT your land. It is OUR land. You are supposed to insure that it is **OPEN** to USE by ALL the people for ALL recreational activities NORMAL people like to do. You have failed miserably in that regard by the continued closure of previously open use areas in favor of gnats, rats, bureaucrats, and democrats. Oh you have your "studies" of "critical habitats", "watershed disturbance", "endangered species", and all that other hogwash. All it proves is that the forest "service" is WAY over funded and must be abolished. It is widely believed that wildlife biologists have planted evidence, falsified data, and done whatever it takes to force their extremist ideas down the throats of the American people. **But like most liberal bureaucrats who break the law they are never punished or fired.**

Something most people are unaware of is the dirty little secret that while they have to go to work day in and day out to pay the onerous taxes extorted from us to fund the outrageous pay and benefits you and the hordes of new and existing jackbooted thug bureaucrats that lord over us are given, the environmentalists are funded by taxpayers through the idiotic concept of **organizational standing**. This travesty gives them the ability and the "right" to have all the time and taxpayer money they need to get your attention and, if they don't get their way, to SUE US WITH OUR OWN MONEY as if they represented us to the benefit of bugs which **they absolutely** do not. This is a blatant abuse of judiciary power and must be abolished. They do not represent normal Americans in any manner, shape, or form.

There is a solution to this...categorize all existing roads as "authorized"...problem solved

and normal Americans will once again have the right to use THEIR LAND.
